Ex-Gov. Simon Boliver Buckner  
a candidate for U. S. Senator.

Gov. Brown has designated Friday,  
November 9, as Arbor Day in  
Kentucky.

The outlook for Democratic success  
this fall grows more beautiful  
and bright as the days go by.

Japan continue to get the best of  
China in the war between them.  
Japanese troops are now marching  
upon Peking in vast numbers.

Hon. William L. Wilson has re-  
turned from abroad, much im-  
proved in health, and will make an  
active canvass in his district in  
West Virginia.

Senator Hill has accepted the  
nomination for Governor and the  
fight is now on at fever heat. If  
you want to bet on the result put  
your money on Hill.

The Republicans who have un-  
dertaken to retire the Hon. Wil-  
liam L. Wilson from Congress are  
encountering a troublesome ob-  
stacle in the condition of the wool-  
len mills in his district. The mil-  
lowners are unable to keep up  
with their orders, and some can not  
get as many men as they need to run  
double time.

Congressman Silas Adams has  
abandoned the contest for re-elec-  
tion in the Eleventh Congressional  
district, according to a report from  
Middleborough. Hon. D. G. Col-  
son is confident that the Court of  
Appeals will permit him to be de-  
clared the Republican nominee, but  
White will still be on the track  
and the Democrats will have a  
fighting chance.

The income tax saves the poor  
people \$30,000,000 a year taxes.  
The rich people are required by  
this law to pay a more just propor-  
tion of the taxes of the country.  
The Democratic party passed the  
bill over the protest of Republican  
representatives, who seem to be  
in Congress for the purpose of  
looking after the interests of the  
rich classes. Make the rich richer  
and the poor poorer in this rule.

Bills Hart was reared on a farm  
and took up that honorable occupa-  
tion as a life work. There can be  
no doubt of his sincerity in the  
cause of the farmer. Those "farm-  
er boys" candidates who deserted  
the farm as soon as they were old  
enough to leave home would not  
trouble themselves much in Con-  
gress about the agricultural inter-  
ests. Farmers, vote for Hart and  
thoroughly vote to further your inter-  
ests.

### County Judge.

RICH CHURCH, Oct. 8.  
I promised in a previous letter to  
give some of the unjust and unwise  
rulings on points of law by R. C.  
McClure while Supt. of Schools. I  
know of no better way of giving his  
manner of deciding points of law  
than to give his words used upon a  
certain occasion. A friend asked,  
"Have you the right to do that, R.  
C.?" He replied, "I'll assume the  
right."

"I'll ASSUME THE RIGHT" to  
revoke all certificates held by the  
teachers of this county when he  
was elected Supt. without law,  
without cause, and without a prece-  
dent. Nearly all of the teachers  
were young men and young women  
of high moral character and  
good education, without a blot upon  
their records as teachers. He had  
no legal right and as a lawyer to-  
day he will not say that he had a  
legal right; he would be ashamed to  
confess such ignorance.

His only right was an "assumed"  
one. The Superintendent has no right  
to revoke a certificate unless the  
person be incompetent, immoral,  
does a wrongful act, or omits a  
duty. None of these charges were  
made against any of the teachers.  
What was his motive? He wanted  
to reduce the grades of certain  
teachers and did so by giving  
them lower grade certificates. It  
was an usurpation of power and  
just and unjust were punished  
alike.

"He assumed the right" to com-  
pel the teachers on certain year  
(1887) to attend the State Teacher's  
Institute three weeks and when  
his attention was called to the fact  
that there was no law for compelling  
teachers to attend a State Teacher's  
Institute, he replied that each  
teacher must attend or quit teach-  
ing, and said positively that he  
would revoke certificates of all who  
did not attend full three weeks.

Having learned by experience  
that the Supt. had "assumed" won-  
derful "discretionary authority,"  
we submitted again to the imita-  
tion rulings of King George III.

However, we find this law to have  
been in effect at that time:  
Art. 10, Sec. 2, Common School  
Law: "Every teacher of a com-  
mon school must attend the full  
session of such Institute (meaning  
Co. teachers' Institute) and shall  
continue from year to year to do so  
as long as the Institute shall be  
kept up, upon a penalty for non-  
attendance, if satisfactory excuse  
has not been made to the Co. Supt.,  
of forfeiting his certificate. The  
session shall not be less than four  
days, during which time there shall  
be vacation of the common schools  
of the county to give opportunity  
to the teachers to attend; and no  
reduction of the teacher's wages  
shall be made during said vacation,  
provided he was in attendance the  
full time of the session of the In-  
stitute."

Now, the schools were in vaca-  
tion three weeks, the teachers at-  
tended full time, and were entitled  
to full wages, but Mr. McClure only  
gave receipts for five days, when it  
should have been fifteen to comply  
with the law. If he attempts to de-  
ny this we can prove its truth-  
fulness by about eighty teachers.

"He assumed the right" to call  
special elections to elect trustees,  
to settle contests, a right not given  
him by the Common School Law  
and he thereby avoided a duty re-  
quired of him in sections 72, 74 and  
75 Common School Law.

"He assumed the right" to with-  
hold a certain teacher's certificate  
under the pretense that he had fail-  
ed. Another party who had seen  
this teacher's grade knew that he  
had not failed and informed him of  
the fact. Three weeks after the ex-  
amination, in the presence of one  
examiner, this teacher and one other  
person, Mr. McClure issued to  
said teacher a certificate. We chal-  
lenge him to deny it. Why did he  
not issue the certificate before an-  
other person had contracted for his  
school?

"He assumed the right" to lower  
the grades of certain teachers from  
first class to second, from second to  
third class certificates, and to raise  
the grades of others who had failed  
to make the necessary grade, to  
third class; some from third to second  
and others from second to first  
class to suit some peculiar  
fancy; and after those grades had  
been copied into the Supt.'s Record  
Book, an affidavit of the above  
was once given to the public, and no  
denial or explanation has ever  
been made. Afterward some one  
"assumed the right" to remove the  
leaves which contained those grades  
from the above named Supt.'s Record  
Book. Look in the back part of  
the Record Book kept by R. C. Mc-  
Clure while Supt. of Schools and  
you will see the stubs of the leaves  
which contained those grades.  
If a man will exceed his authori-  
ty while Supt. of Schools can you  
expect anything better of him  
as County Judge?

### Business Revival.

All over the country, and particu-  
larly in the South, we see the most  
gratifying indications of a speedy  
and general revival of business  
prosperity. Idle factories are start-  
ing up again, unemployed laborers  
are returning to work, railroad  
freights are increasing, trade in  
large cities is brisk and money com-  
ing out of its hiding places to seek  
profitable investment. The cotton  
and other crops of the South are the  
best seen for years, domestic wools  
are increasing in price and all  
along the line the good effects of

than before. The most common result is  
**RHEUMATISM**  
for which it is the most reliable  
cure. A few bottles will afford relief  
where all else has failed.  
It is a powerful and long acting agent

the new tariff are beginning to be  
seen and felt. Mr. Sherman him-  
self admits that the country will  
soon adjust itself to the new condi-  
tions. Under such a hopeful con-  
dition of things will any democrat  
hesitate to stand firm in the faith  
or to support the nominees of his  
party? Will you restore the re-  
publicans to power to start another  
tariff agitation before the new bill  
has been fully tested?—Point

Senator Hill has ended doubt of  
his intentions by formally accept-  
ing the nomination for Governor  
of New York. The State Commit-  
tee completed its ticket by nomi-  
nating Judge Chas. F. Brown for  
Judge of the Court of Appeals, in  
place of Judge Gaynor. In accept-  
ing his nomination for Lieutenant  
Governor, Representative Lock-  
wood intimated that the support of  
the Administration at Washington  
could be relied upon for the ticket.

"There is no end of idle money  
which will now seek active employ-  
ment," says Chauncey M. Depew,  
in his Hamburg interview. "In  
less than two years the panic of  
1893-4 will be forgotten. Mines,  
furnaces, mills and factories will  
be in full operation; railroads will  
be conveying profitable traffic, and  
the movement of internal com-  
merce and the free circulation of  
currency or the equivalent in busi-  
ness and wages will certainly in-  
crease the demand for everything  
produced upon the farm or else-  
where."

In an interview at Baltimore Hon.

speech before delivering it, and

speech as he would make and will

### ELECTROPOISE

Cures Disease.

The Electropoise gave me com-  
plete relief from excruciating pain  
in three applications. I also find  
it good for treating children for  
their numerous ailments.—(C. T.  
Soden, with Bridford & Co.,  
Louisville, Ky.)

Mr. G. W. Flint, of Skylight, Ky.,  
says: "I suffered for years with my  
kidneys, inflammation of the blad-  
der and enlargement of the pros-  
tate gland. After a short trial  
of the Electropoise I am entirely  
relieved, and feel twenty years  
younger."

I have derived more benefit from  
the use of Electropoise than from  
all other remedies combined. I  
think it was the greatest invention  
of the age. It can not be praised  
too highly.—(Mrs. M. E. Gorman,  
Saville, Kentucky, August  
20.)

John H. Davis, Esq., of Bar-  
boursville, Ky.: "The Electropoise  
is the best all-around doctor I  
know of. My wife suffered from  
the effects of a gripper for several  
years; also a complication of other  
ailments. Now she is en-  
tirely well. One of my neighbors  
is worn for lung trouble, and all  
reports improvements."

As a curative agent the Electro-  
poise can not be equaled. Nearly  
1,000 have been put out from this  
in the last three months.
